

HESS TIMBER, a member of the HASSLACHER group, stands for more than 140 years of tradition, innovation and outstanding achievements in timber engineering. The timber constructions of HESS TIMBER can be admired in modern architecture all over the world. With our customers we realize outstanding and creative ideas. We produce exceptional quality - with special technics and shapes, latest production machines and first-class timbers and with our well-trained and highly motivated team.

### **TIMBER LIMITLESS**

To reinforce our team we are looking for a

## **QUALITY MANAGER PROJECTS** (m/f/x)

### **THE TASK**

- You are part of the project management and responsible for the quality assurance of components used in our international timber construction projects
- You are involved in quality planning from the early stages of the project and are responsible for quality assurance and testing at the end of the project
- You carry out quality controls at our suppliers and coordinate the project-related quality processes with the production plants of the HASSLACHER Group
- You create project-specific quality manuals and coordinate them directly with our customers
- You continuously optimize our quality assurance processes
- You will support and act as representative in the area of material purchasing and transport logistics
- You are responsible for the further development of knowledge management

### **YOUR PROFILE**

- You have a comprehensive technical understanding and are characterized by a careful and reliable way of working
- You have experience with quality management, preferably in the timber construction industry
- You are familiar with the properties of different materials (steel, wood, plastics, etc.) and like to familiarize yourself with new specialist topics
- You have a very good knowledge of written and spoken English
- You are willing to travel (approx. 10 %), as some of our projects are produced at different locations of the HASSLACHER Group

### **OUR OFFER**

- Responsible, independent and varied activities
- Involvement in the most demanding timber engineering projects worldwide
- Future-oriented workplace in a globally expanding company
- Well-founded induction by an experienced international team
- Flat hierarchies and modern structures with performance-related remuneration
