

HESS TIMBER, a member of the HASSLACHER group, stands for more than 140 years of tradition, innovation and outstanding achievements in timber engineering. The timber constructions of HESS TIMBER can be seen in modern timber architecture all over the world. With our customers we realize outstanding and creative ideas. We produce exceptional quality - with special technics and shapes, latest production machines and first-class timbers and with our well-trained and highly motivated team.

TIMBER LIMITLESS

To reinforce our team we are looking for a

Rhino Designer – Timber Construction (M/F/X)

THE TASK

- Analysis of design documents for geometrically challenging timber construction projects worldwide
- Creation of detailed 3D construction models in collaboration with the project team
- Preparation of technical drawings and specifications for approval
- Preparation of the production documentation for glulam, cross-laminated timber and steel components
- Support during installation of the timber parts

YOUR PROFILE

- Degree in civil engineering or architecture
- Confident handling of Rhinoceros 3D and experience with Grasshopper
- Good spatial visualization capabilities and basic knowledge of analytic geometry
- Relevant experience in civil engineering, preferably in timber constructions
- Programming skills desirable (e.g. Python, C#)
- Creativity, reliability, ability to work in a team and high motivation
- Good written and spoken English skills

OUR OFFER

- Independent and varied activities
- Involvement in some of the most ambitious timber engineering projects worldwide
- Future-oriented workplace in a globally expanding company
- Well-founded onboarding by an experienced international team
- Flat hierarchies and modern structures with performance-related remuneration
